

NEW INTEGRATED LIFE PAVILION

EXHIBIT AT THE ONLY TRADE SHOW IN NORTH AMERICA THAT FEATURES BOTH COMMERCIAL SMART BUILDING AND SMART HOME SOLUTIONS.

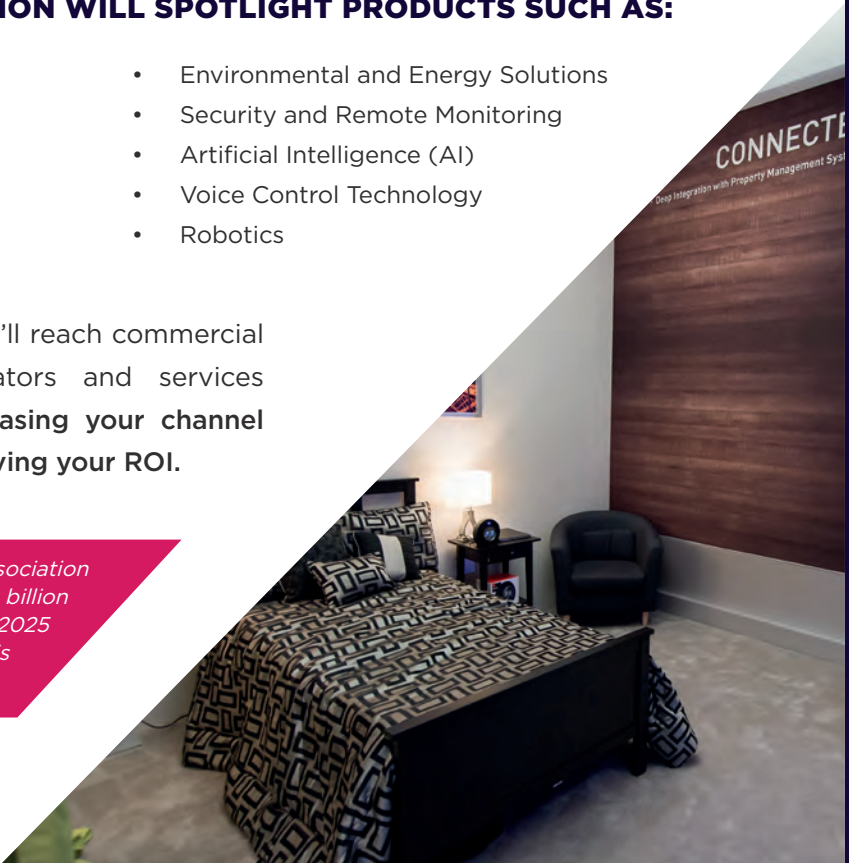

Integrated Life at InfoComm 2018 is a dedicated area on the show floor for the technologies that make life as seamless as possible, whether at home, at the office, commuting, travelling for business, or even dining out. If your product is interactive, connected to other systems and helps people communicate, learn, be entertained or control their environments and experiences, then you belong in the Integrated Life Pavilion at InfoComm 2018.

THE INTEGRATED LIFE PAVILION WILL SPOTLIGHT PRODUCTS SUCH AS:

- Intelligent Home Systems
- Architectural Lighting
- Control Systems and Sensors
- Building Systems Automation and Management
- Environmental and Energy Solutions
- Security and Remote Monitoring
- Artificial Intelligence (AI)
- Voice Control Technology
- Robotics

By participating in InfoComm, you'll reach commercial and residential systems integrators and services providers, all in one show—**increasing your channel development potential and improving your ROI.**

The Continental Automated Buildings Association (CABA) has forecast that there will be 70 billion Internet of Things-connected devices by 2025 and that the building-related IoT market is projected to reach \$76B by 2020.
